

# TP PKK Mulai Siapkan Sejumlah Inovasi

**KANIGARAN** – Tim Penggerak (TP) PKK Kota Probolinggo memang belum secara resmi dikukuhkan. Meski begitu, dibawah komando Aminah Hadi Zainal Abidin, TP PKK Kota Probolinggo tengah menyusun program kerja (proker) di tahun 2019-2020.

Senin (11/3), bertempat di Sabha Bina Praja, empat ketua kelompok kerja (pokja) di TP PKK memaparkan prokeranya. Paparan itu disampaikan kepada Ketua TP PKK Aminah Hadi Zainal Abidin; Wakil Ketua I Diah Kristanti HMS Subri dan Wakil Ketua II Tri Wahyuni Bambang Agus Suwignyo.

“Setiap pokja harus menyusun program dengan baik. Sehingga, dapat menjalankan tugas sesuai tanggung jawab masing-masing,” kata Aminah.

Paparan pertama oleh Pokja I yang diketuai oleh Mudayati Mufi. Pokja ini menangani bidang keagamaan. Bidang keagamaan punya banyak kegiatan diantaranya istighosa dan pondok Ramadan.

Dilanjutkan Ketua Pokja II Wila Purwandari, pokja bidang ekonomi dan pendidikan. Bidang ini berencana melakukan monev pada program UP2K (Usaha Peningkatan Pendapatan Keluarga) yang sudah semakin tidak maksimal.

“Juga menghidupkan kembali Dekranasda, karena sekarang sudah mati suri. Pada 2020, kami sudah menyiapkan inovasi Pos Cinta. Yang artinya pos curhat ibu danak tercinta yang ada di 29 kelurahan. Di satu kelurahan, ada petugas yang dipercaya untuk melakukan konseling,” tegas Wila, istri Kepala Satpol PP, Agus Efendi.

Selanjutnya, Ketua Pokja III membidangi pertanian, Tri Kartini Marhaendrawasih. Pokja ini tetap mempertahankan lomba cipta menu sebagai ciri khas dan agenda tetap. Namun lomba cipta

menu yang biasa digelar bersamaan dengan BBGRM dan HKG PKK bakal dibuat agak berbeda.

“Ada life cooking mengenai kudapan yang hasil atau pemenangnya dijadikan menu lokal yang wajib disajikan atau disuguhkan kepada tamu yang datang ke Kota Probolinggo. Pemenang juga akan dibuatkan kontrak selama satu tahun. Dan wajib menyebarluaskan resep tersebut ke kelurahan-kelurahan. Dengan begitu varian menu di Kota Probolinggo lebih variatif,” imbuh Sekretaris Pokja III, Rani Yusticia. Pokja ini juga punya program menggerakkan UMKM di usia produktif 25-45 tahun sesuai dengan visi misi wali kota.

Ketua Pokja IV adalah NH Hidayati, yang membidangi kesehatan. Pokja ini punya program yang mengakomodir visi misi wali kota. Yaitu pemberian pendampingan kesehatan dan nutrisi bagi ibu hamil hingga melahirkan. Peningkatan strata pelayanan posyandu pun akan dilakukan pokja ini.

### **Sinergi dengan Pemkot**

Pengurusan TP PKK ini memang berbeda dari sebelumnya. Ada keterlibatan banyak elemen organisasi perempuan yang diakomodir disini. Misalnya, ada pengurus Muslimat NU dan ASN di lingkungan Pemkot Probolinggo sesuai dengan bidang yang digeluti.

Paparan program pokja pun mendapat apresiasi dari Diah Kristanti. “Saya appreciate sekali dengan ide-ide pokja. Kami kok yakin banget dengan di-support perempuan hebat di Kota Probolinggo, PKK semakin maju. Apa yang sudah menjadi program kegiatan PKK ini saya harap bisa dirasakan dan menyentuh langsung ke masyarakat,” ujar istri Wawali HMS Subri itu.

Sementara itu, Aminah Hadi Zainal Abidin mengingatkan semua program yang telah disusun sudah disesuaikan dengan Rencana Kerja dan Anggaran (RKA) Organisasi Perangkat Daerah (OPD). Berulang kali, Aminah mengajak semua pengurus PKK yang baru untuk sama-sama belajar.

“Saya orang baru yang sebelumnya tidak pernah ikut seperti ini. Mari bersama-sama kita belajar bareng, semangat, kreatif, berinovasi sehingga apa yang kita lakukan ini dampaknya dirasakan oleh masyarakat,” ajak ibu tiga anak ini.

Proker yang sudah disusun oleh pokja akan dipelajari oleh Aminah, bersama suaminya, untuk menyinkronkan program Pemkot dan PKK.

“Semoga PKK bisa berperan dalam pembangunan dan mendukung program Pemkot Probolinggo. Karena dari paparan yang disampaikan, ternyata banyak PR yang harus kami lakukan,” ujarnya. **(famydecta/humas)**

*Probolinggo City Family Welfare Movement (TP PKK) has not yet been formally inaugurated. Even so, under the command of Aminah Hadi Zainal Abidin, TP PKK is currently working on a work program (proker) for 2019-2020.*

*Monday (11/3), at Sabha Bina Praja, four chairmen of the working group (pokja) of TP PKK explained their project. The presentation was submitted to the Chairperson of the TP PKK Aminah Hadi Zainal Abidin; Deputy Chairperson I Diah Kristanti HMS Subri and Deputy II Chairperson Tri Wahyuni Bambang Agus Suwignyo.*

*“Every working group must arrange the program well. So, they can carry out their duties according to their respective responsibilities,” Aminah said.*

*The first presentation by Pokja I chaired by Mudayati Mufi. This working group is dealing with religious affairs. The religious sector has many activities including istighosah (mass prayer) and Pondok Ramadhan, a religious activity held during Ramadhan month.*

*The presentation was continued by Chairperson of Working Group II Wila Purwandari, a working group on economics and education. This group plans to conduct monitoring and*

evaluation on UP2K (Family Income Improvement Effort) program which has been not optimal.

“We would like to revive Dekranasda, because it is now a vacuum. By 2020, we have prepared the Pos Cinta innovation, a counseling center for mothers and their children which will be conducted in 29 sub-districts. In one sub-district, there would be officers who are trusted to conduct counseling,” said Wila, wife of the Head of the Satpol PP, Agus Efendi.

Furthermore, Chairperson of Working Group III dealing with agriculture, Tri Kartini Marhaendrawasih presented her program. This working group still maintains the menu creation competition as a distinctive feature and permanent agenda. Yet, the usual menu creation competition held together with BBGRM and HKG PKK will be held somewhat different.

“We have live snacks cooking that the winners will be named as a local menu that must be served to guests who come to Probolinggo City. The winner will also sign a contract for one year. The recipe must be distributed to the sub-districts. That way, Probolinggo city would have more varied menus,” added Secretary of the Working Group III, Rani Yusticia. The working group also has a program to mobilize SMEs in the productive age of 25-45 years based on the mayor’s vision and mission.

The Chairperson of Working Group IV, NH Hidayati, who is in charge of health has a program that accommodates the mayor’s vision and mission. The program is providing health and nutrition assistance for pregnant women to childbirth. Increasing the service of integrated health center (posyandu) will be conducted by this working group.

### **Synergy with the Municipality**

The management of TP PKK is indeed different from the previous one. There is involvement of many elements of women’s organizations being accommodated here. For example, there are

*administrators of Muslimat NU and ASN within the municipality in accordance with the fields they are good at.*

*The presentation of the working group program received appreciation from Diah Kristanti. "I really appreciate the working group ideas. We are so sure that being supported by great women in the city, PKK would be greater than before. I hope that these programs can give benefits to the community," said the wife of Vice Mayor of HMS Subri.*

*Meanwhile, Aminah Hadi Zainal Abidin reminded that all the programs that had been prepared should be adjusted to the Working Units (OPD) Work and Budget Plan (RKA). Repeatedly, Aminah invited all the new PKK administrators to learn together.*

*"I am a new person who has never been involved in such an organization. Let us together learn together, be passionate, creative, innovative so that what we do would give benefits to the community," invited the mother of three children.*

*The work program prepared by the working group will be studied by Aminah, along with her husband, to be synchronized with the municipality programs.*

*"Hopefully PKK can play a role in the development and support of the Probolinggo Municipality program because, from the presentation that was delivered, we found that there was a lot of homework we had to do," she said.*
